

Electrical Safety Codes Officer

Park Enterprises | Alberta Service Region (1 position available)

Park Enterprises is an accredited, values-driven agency that delivers permitting and inspection services throughout Alberta. To strengthen our service delivery across multiple regions. We have one part time position available in **Lethbridge County, Fort Macleod, Vulcan and area**—we're adding skilled Electrical Safety Codes Officers who are passionate about ensuring the safety, compliance, and integrity of electrical systems in residential, commercial, and industrial settings. This position require travel within the assigned region.

The Opportunity

As an ESCO, you'll act as both technical expert and safety advocate—interpreting the Alberta Electrical Code, conducting inspections, and providing professional consultation to electricians, engineers, and homeowners. Your expertise will ensure that all electrical installations meet rigorous safety standards and support Park's reputation for exceptional client experience.

Key Deliverables

- Perform inspections of electrical installations to ensure compliance with the Alberta Electrical Code, Safety Codes Act, and related regulations.
- Assess permit applications and design submissions for accuracy, completeness, and code compliance.
- Issue correction notices and enforcement actions as required; follow up to ensure deficiencies are resolved.
- Document inspection findings, maintain detailed records, and prepare professional reports.
- Provide expert technical guidance and education to contractors, engineers, and homeowners on electrical safety and best practices.
- Interpret and apply STANDATAs, variances, and other regulatory directives.
- Stay current with electrical code updates, emerging technologies, and industry advancements while maintaining SCC certification.
- Navigate Park's digital permitting platform (eSITE) and utilize tablets and software tools for inspections, plan reviews, and communications.
- Collaborate with team members to enhance processes, efficiencies, and public education initiatives.
- Embody Park's guiding principle: *"Inspections by People Who Care."*

What You Bring

Technical Expertise

- Certification as an Electrical Group A Safety Codes Officer (SCC).
- Journeyperson Electrician certification recognized in Alberta with at least four years of post-ticket experience.
- Extensive knowledge of the Alberta Safety Codes Act and the Canadian Electrical Code (CEC).
- Experience as an ESCO or equivalent field inspection role is highly advantageous.
- Proficiency in report writing and electronic documentation.
- Familiarity with Google Suite and the ability to quickly learn new software applications.
- Strong commitment to safety, professionalism, and continuous improvement.

Professional Attributes

- Exceptional communication skills with professionalism, empathy, and client-centred focus.
- High personal accountability, integrity, and self-motivation.
- Strong time management, attention to detail, and problem-solving skills.
- Ability to work independently while contributing effectively within a team.
- Valid Class 5 driver's licence and clean driver's abstract.

Why Park Enterprises

We offer a competitive compensation and benefits package—including a company-provided vehicle, health spending account, and RRSP matching—within a culture grounded in integrity, expertise, and service excellence. You'll be empowered to lead with technical authority while advancing your professional growth and long-term career within a respected Alberta agency.
