Electrical Safety Codes Officer (ESCO)

Elspect Electrical (2007) Ltd. provides leadership in Safety Codes Regulatory compliance services for improving the quality, maintainability and reliability of installations by integrating our expertise with that of our clients' quality, regulatory and safety management systems. Elspect is proud to be accredited by the Standards Council of Canada for Electrical Certifications and Approvals. We provide comprehensive training for our employees, equipping them with the necessary skills and knowledge to carry out these certifications and approvals effectively.

Elspect provides a dynamic, positive, and challenging working environment with people who are passionate about what they do. As a member of Elspect you will work in a progressive organization that benefits the safety industry.

Elspect Electrical (2007) Ltd. is seeking an Electrical Safety Codes Officers – Group A or a Journeyman Electrician who is qualified to become an ESCO. This is an employee position with competitive wage and benefits provided.

The successful candidate will be responsible for reviewing plans and documents, conducting site inspections in Alberta, and providing technical advice and knowledge

Skills and Qualifications for these positions include:

- Safety Codes Council “Certificate of Competency” Group A in the Electrical Discipline or Journeyman Electrician Certificate that meets the qualifications to become an ESCO
- Valid class 5 driver’s license with a clean driver’s abstract
- Safety Courses – First Aid / CSTS / H2S Alive
- Experience in the Oil and Gas industry
- Ability to work independently or in a team environment and be self-motivated
- Ability to exercise initiative and independent judgment / discretion
- Exceptional organizational and time-management skills with the ability to multi-task and prioritize workload efficiently
- Superior interpersonal and verbal/written communication skills to communicate terminology that can be comprehended by the recipient, regardless of their level of industry knowledge
- Ability to use computers.
- Proficient knowledge of Microsoft Office programs, including Microsoft Word, Excel and Outlook
- The Electrical Safety Codes Officer must maintain certification in accordance with the requirements of the Safety Codes Act and regulations pursuant to the Act.
