Storage Tank Search Request

The Alberta Safety Codes Authority (ASCA) can conduct historical record searches for tanks located at a specific location.

Search Request Pricing & Payment

Searches cost \$20.00 per location. *ASCA requires payment for all fee-based applications including search requests before the release of information.*

The Safety Codes Council will invoice accordingly. Once payment is received, we will process your submitted application or search request in the order it was received. If you would like to set up an account, please contact our Accounting Department on 780.413.0099, Toll Free 1.888.413.0099 or accounting@safetycodes.ab.ca.

In order to submit a search request, complete this form and send to ascatanks@safetycodes.ab.ca.

Include **all** available information on location; address, municipality, lot, block, plan and legal land description to our office to ensure no delays occur in processing search requests.

When large parcels of land are being requested for search, the requestor will be responsible for payment of all locations/addresses indicated on the application or sites found in our database within the requested search coordinates. The applicant will be advised the cost on the provided invoice.

If tanks are located at the requested location(s), we would provide you with copies of the site/tank detail, tank closure report and site diagram, if available.

Requestor's Name: _____ **Company:** _____

Billing Address: _____ **City/Town/Village:** _____

Province: _____ **Postal Code:** _____ **Phone Number:** _____

Email Address: _____ **File or Reference No:** _____

By submitting this form, you agree you have authorization to conduct this search on behalf of your company and agree to pay all fees associated with conducting the search.
